## ► i-VTEC PETROL

Honda's legendary 1.5L i-VTEC petrol engine gives you a fierce combination of high power output and class-leading fuel efficiency.

The 1.5L i-VTEC in the BR-V comes with two transmission options - the lightweight 6-speed Manual Transmission (MT) which has top class transmission efficiency and first-in-segment Continuous Variable Transmission (CVT).

Powered by Continuous Variable Transmission (CVT), BR-V is the ultimate automatic. Its G-design shift and torque converter deliver excellent performance and help you cruise through traffic with ease.

# BE READY FOR SAFE TRIPS

BR-V sets a high standard in care and safety with its exclusive ACE™ body structure that enhances self-protection while mitigating damage to other vehicles in the event of a collision. To be double sure about your protection, it comes with the driver and front passenger SRS airbags and ABS with EBD.

## THE DUAL SRS AIRBAGS

These instantly inflate in the event of a collision, giving you and your co-passenger the required cushioning.

### ABS WITH EBD

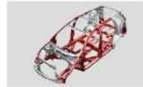

The advanced Anti-lock Braking System (ABS) prevents wheels from locking during emergency braking. Electronic Brake-force Distribution (EBD) functions to distribute braking power according to the vehicle load.

### IMMOBILISER ANTI-THEFT SYSTEM

### ACE™ BODY STRUCTURE

BR-V provides cutting-edge protection and safety in every trip. Its ACE™ body structure enhances self-protection while mitigating damage to other vehicles in the event of a collision.

### PRE-TENSIONER SEAT BELTS WITH LOAD LIMITER

During a collision, the Pre-tensioner seat belt automatically tightens to keep the passenger's body in position, avoiding jerky forward chest movement. The Load Limiter functions to reduce excessive pressure, injuries to the chest and also assures that the body is in position to fall directly on the airbag as it inflates.
